(a) landscape
measured (bank mean)
twin
number of configurations
mean utility U (dimensionless, 0–1)
(b) twin vs testbed
measured utility U (0–1)
twin-predicted utility (dimensionless, 0–1)
(c) noise vs window
sd of one test (utility, 0–1)
0000000000
0000010000
0010011000
1111100000
